

# Investigating friction

## Prediction

Predict how the size of the tread on the shoe will change the friction.

---

## Results

Type of shoe or object	Diagram of the tread	How hard is it to drag? Out of 10. 1 = slides like an ice cube. 10 = footballers boots in mud
My shoe		
Pencil case		

**1** Describe what your results show. Use your results to explain your answer.

---

---

**2** Did your results match your prediction? Explain your answer.
