

Year 6

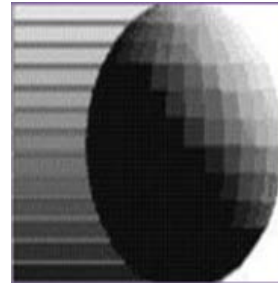

ART TASK !

Learn about:

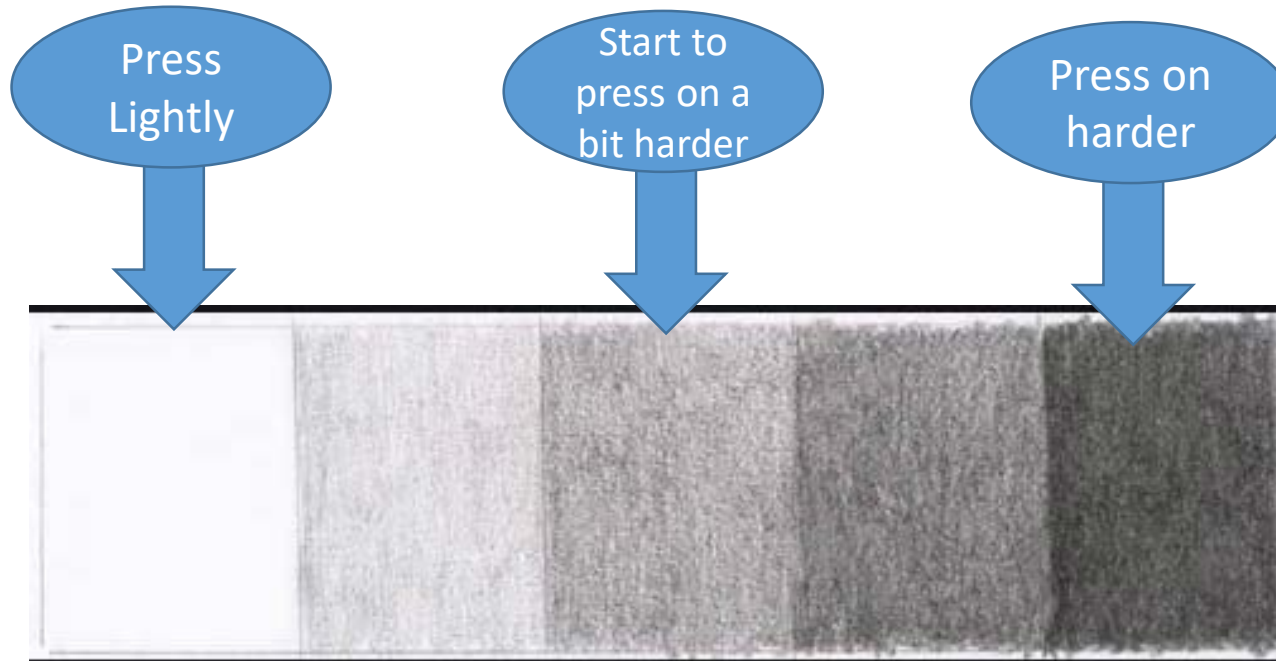

- Drawing from observation
- How to use construction lines
- Shading and creating 3 different tones.

What is meant by tone?

Tone:

- Different degrees of lightness and darkness. This makes objects look real and solid.

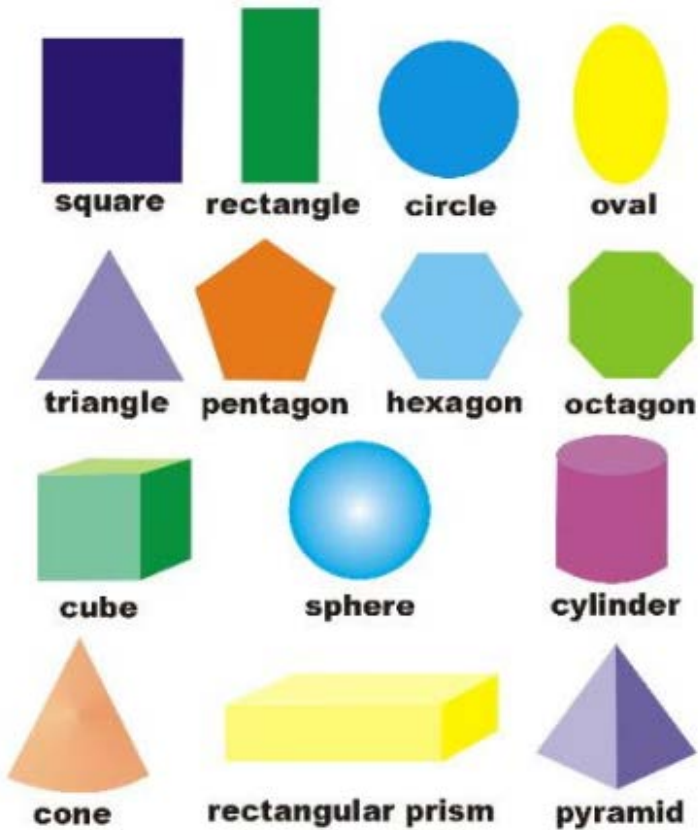

Now have a go at creating your very own tonal bar?

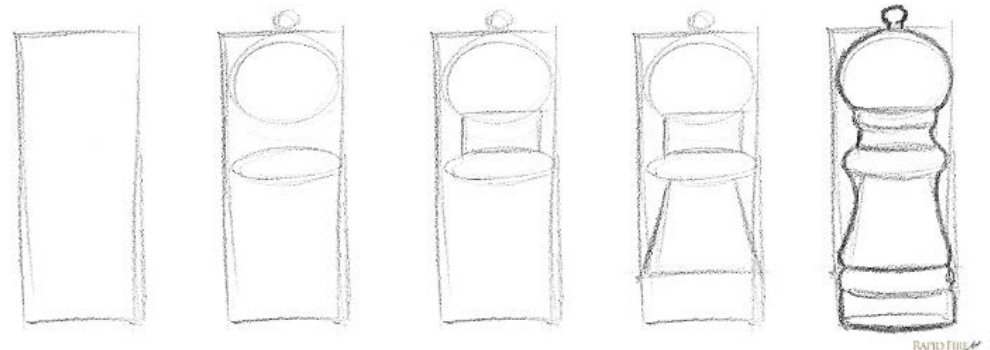

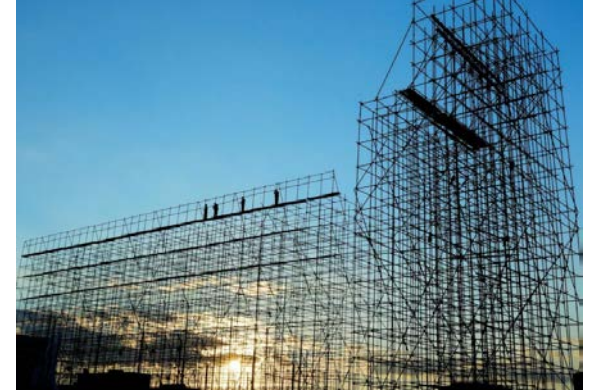

Remember to
use a sharp
pencil

--	--	--	--	--

What are geometric shapes?

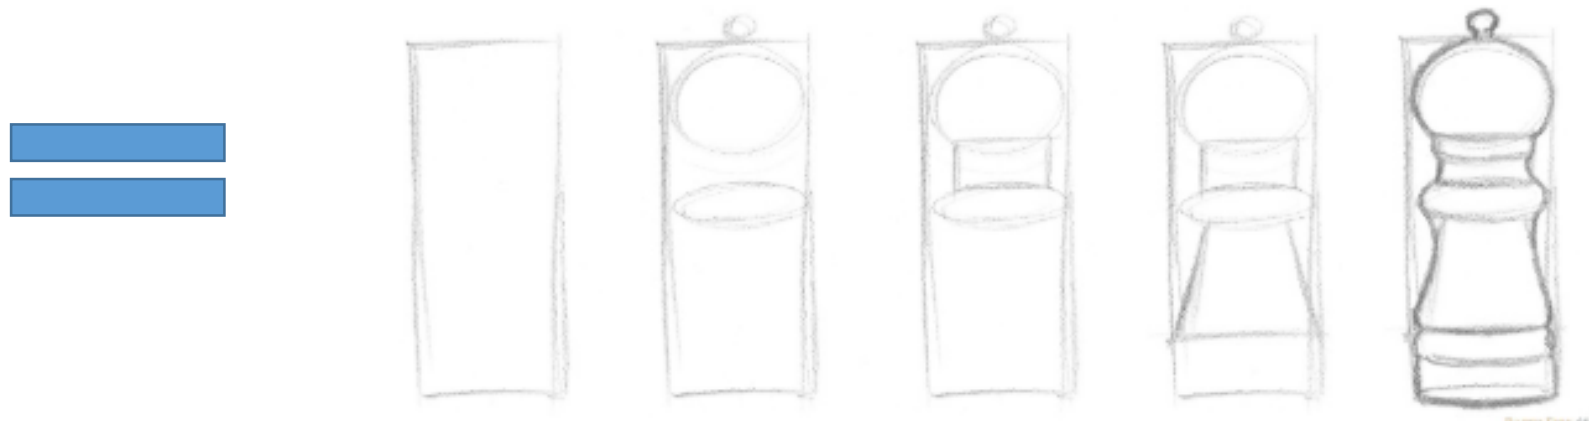

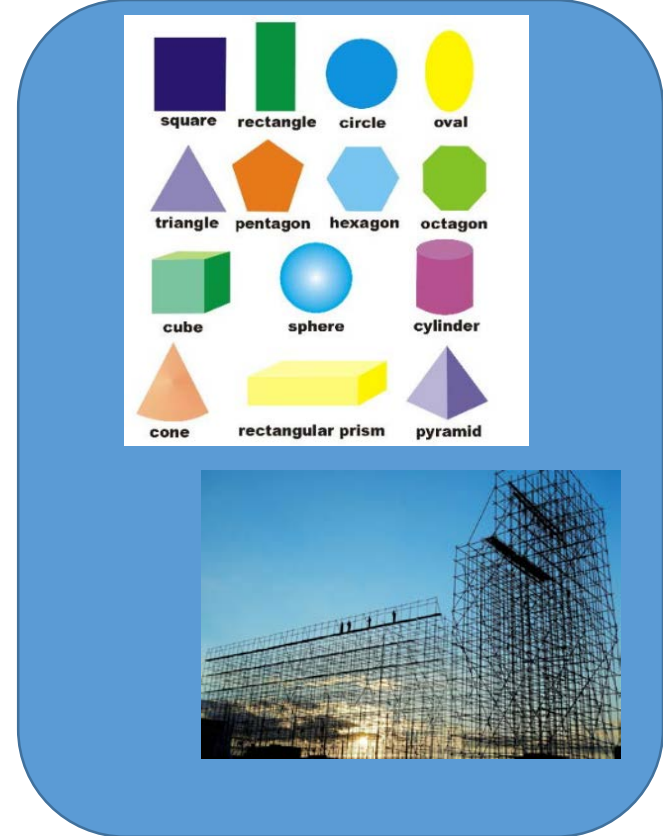

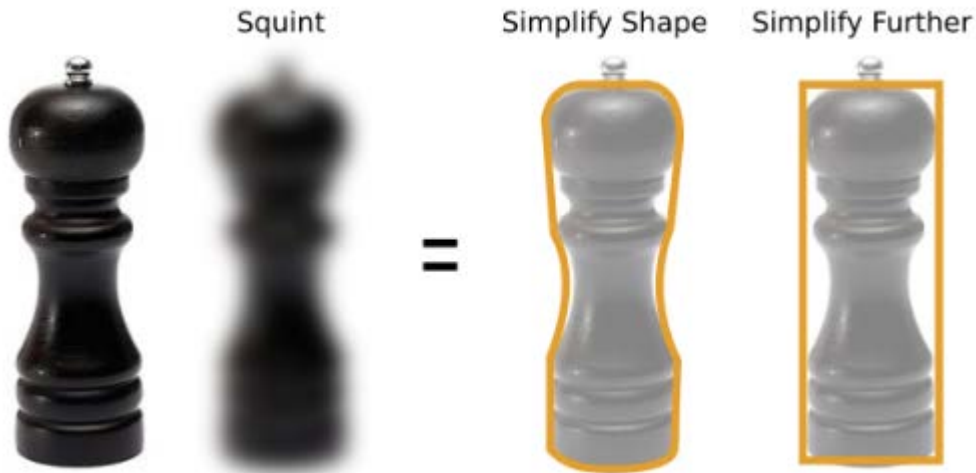

How can we use these shapes to help scaffold our drawings?

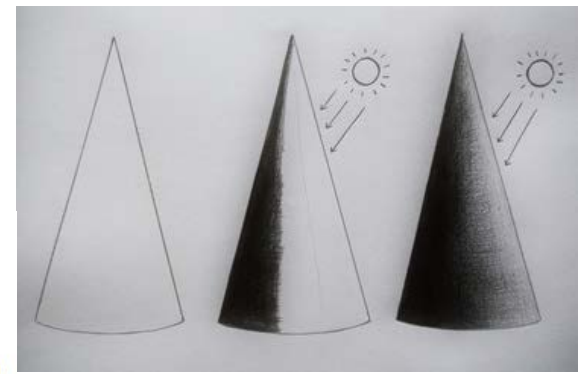

Now I want you to explore creating a drawing of one of these everyday objects:

To help you look to squint your eyes at your chosen object so that you focus on the main shape initial before adding the detail and make sure to use simple geometric shapes.

Now I want you to have a go adding shading to these 3D shapes.

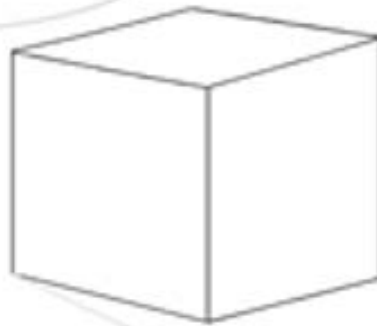

GRADIENT

SPHERE

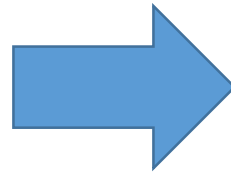

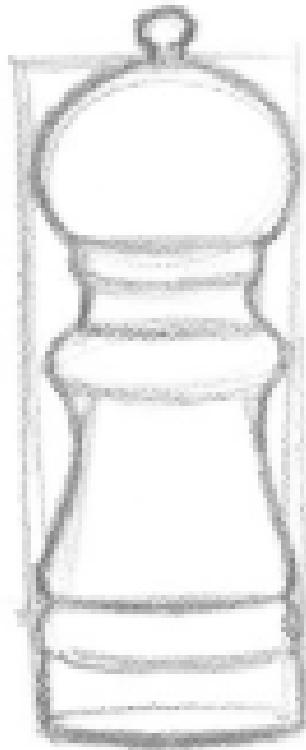

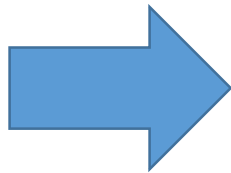

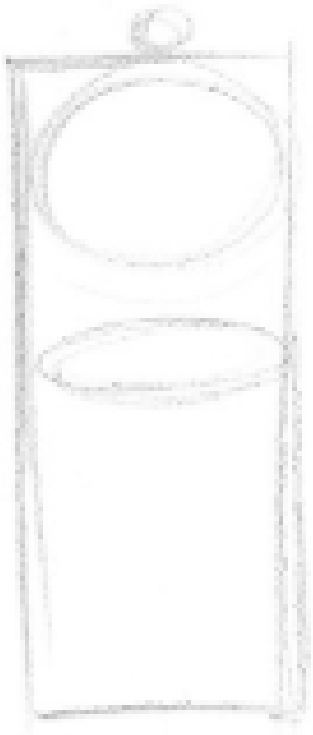

CONE

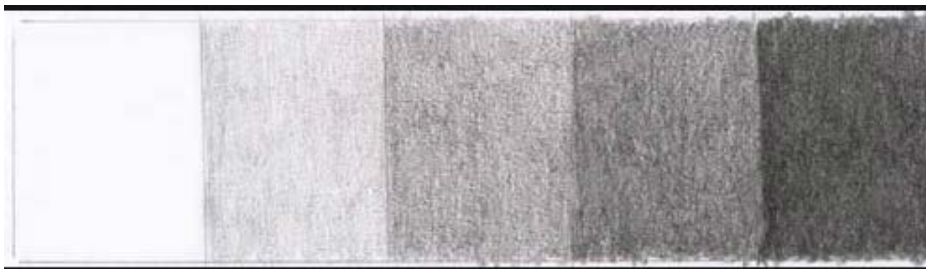

CUBE

Now return to your original drawing and focus on a section and add shading to the everyday household item.

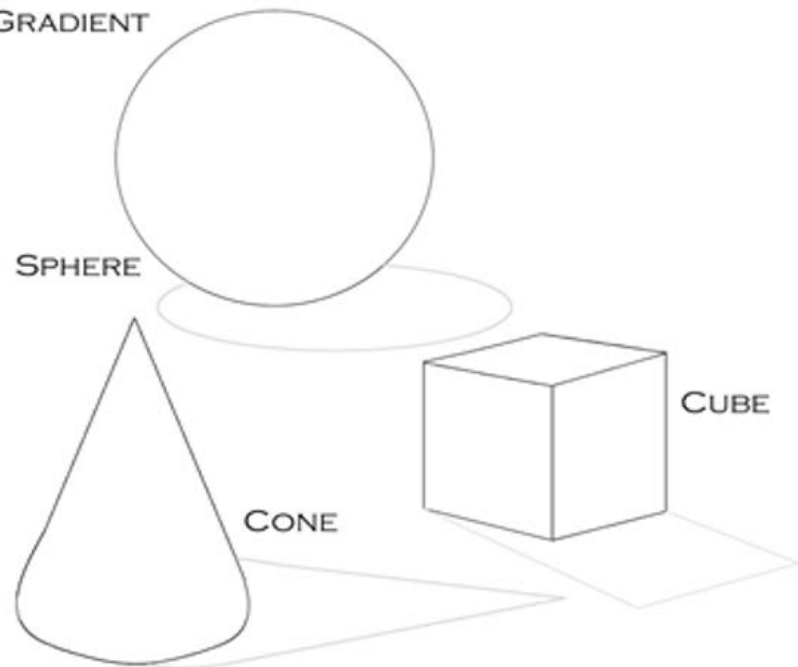

Remember to
use at least
three tones
