Dear Parents/Carers,

Key Stage 3 – Data and Assessment Reports

We are delighted to share key stage 3 report information, collated by subject teachers after marking and verifying recent assessments.

To access your child's data, please select the following link - www.go4schools.com

From the **Login** menu choose **Parents Login** and select **First Time User**. Please sign up using the email address we have registered at school and select **New Password**. This will generate a login email that should be sent within 5 minutes.

Once you have logged in you will be able to access information linked to progress, performance, attitude to learning, homework and attendance:

 Overview

 Attendance

 Progress

The menu to the left-hand side of the homepage allows you to explore each category in greater depth.

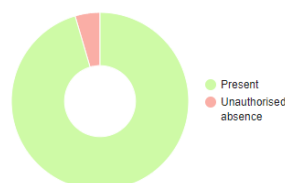

Attendance Information

There is no factor that impacts grades more than attendance. Put simply, students with better attendance make greater progress and achieve higher grades than those who do not. The attendance page provides a detailed breakdown of your young person's attendance for the 2023/24 academic year.

Attendance

Summary session attendance

	Sessions	%
Present	126	95.45%
Approved educational activity	0	0%
Authorised absence	0	0%
Unauthorised absence	6	4.55%
Unknown	0	0%
Late	0	0%

Please note that attendance information in Class Charts and Go 4 Schools may show slight differences, this is due to how the systems work and when they update.

Progress Tab

The progress tab provides subject specific information linked to progress, performance, attitude to learning and homework.

Subjects will either be assigned a progress indicator or performance indicator, dependant on the nature of the subject.

Languages, Mr E Thorold	Progress Indicator Attitude to Learning Homework Completion	Excellent Outstanding Excellent
Maths, Mr M Smith, Mr N Prasad	Progress Indicator Attitude to Learning Homework Completion	Expected Outstanding Good
Music, Miss E Hall	Performance Indicator Attitude to Learning Homework Completion	Expert Performer Outstanding Excellent

Progress Indicator

The progress indicator is determined by comparing student assessment performance against their expected performance, relative to the rest of the cohort. Students can receive a progress indicator of; Excellent; Above Expected; Expected; Below Expected or Significantly Below Expected.

Performance Indicator

In our creative and performance subjects, students are assessed using a performance indicator.

Students can receive a performance indicator of; Expert Performer; Skilled Performer; Consistent Performer; Developing Performer or Emerging Performer.

Attitude to Learning Judgement

Attitude to learning encompasses all the classroom-based behaviours we see from your young person, including their completion of work, engagement in classroom discussion and behaviour within lessons. Students are assigned an attitude to learning judgement from Outstanding, Good, Requires Improvement, Poor.

Homework Completion Information

Homework is a key element in supporting the improvement of outcomes for your young person, this is set weekly and linked to the retrieval of key knowledge that has been previously taught. Students are assigned a homework completion judgement from Outstanding, Satisfactory, Poor and no homework completed.

What Next?

Not all subjects have completed their first assessment and will therefore not display the information outlined above. Subject leaders will inform you once any updates are made.

At OIEA we CARE about our students, and we CARE about their progress.

Should you have any questions regarding your young person's assessment data please feel free to contact their subject teacher or subject leader. Contact details for subject leaders are shown below.

Maths – Mrs A Magill amagill@oiea.co.uk or Mr O Cotton ocotton@oiea.co.uk
