

## CEAIG Action Plan

### Implementation checklist

<b><u>Explore</u></b>	Are we confident that we have identified the right pupil needs by drawing on a range of data and perspectives?	
	Have we selected evidence formed approach that meets pupil needs and is suitable for our setting	
	What is needed to implement this particular program or practice?	
	Are we aware of potential barriers and enablers to change in our setting?	
<b><u>Prepare</u></b>	Is the approach feasible to implement?	
	Have we conducted implementation planning collaboratively so that it unites understanding	
	Is there a shared understanding of why the change is taking place, what it entails, and how it will be implemented?	
	Have we selected a tailored package of strategies to implement the approach and address implementation barriers?	
	Have we identified and empowered a range of people across the school who can support the changes	
<b><u>Deliver</u></b>	Are systems and structures in place to enable effective implementation?	
	Is delivery of the approach treated as a process of ongoing learning and improvement?	
	Are systems in in place to monitor implementation, identify barriers and enablers and make improvements?	
	Do staff feel supported by the actions of leadership?	
<b><u>Sustain</u></b>	Is initial professional development being reinforced by follow on support such as feedback, prompts and reminders?	
	As new priorities emerge, is sufficient support in place to protect and maintain the implementation effort?	
	Do leaders continue to acknowledge and support good implementation practices?	
	Are a range of staff involved so that we aren't over relying on individuals?	
	Before deciding whether to continue, scale up, or stop an approach, have we reviewed the previous implementation effort and outcomes achieved so far?	

**Ensure all students understand vocational options (BTETCS/T Levels)**
